

Substance Free Living Application

Is a substance-free environment right for you?

It is, if you choose to live where residents and their guests have made a conscious choice to keep their units free of alcohol, illegal drugs and all tobacco products. Everyone on campus has certain community expectations to abide by, but by choosing to reside in one of these residence halls, you are placing yourself in an environment where others have made the same commitment.

Biddle, Pickering, and True are the three residence halls designated as substance-free living environments for the 2006-2007 academic school year. All substance free halls, Biddle (East Green), True (South Green), and Pickering (South Green), are co-ed, upperclass, and first-year halls.

If this community sounds like the right choice for you, please complete the online form or if you are submitting a paper contract return this application and send it in with your Housing and Dining Services worksheet/contract. List any roommate preference on the contract below. Be sure your requested roommate(s) also applies for this living environment option.

Upon receiving your application, we will consider Perkins, Pickering, or True as your first priority. Make sure Substance Free is also listed as your first choice for living environment on your online or paper contract. We will use the information from the Housing and Dining Services Contract for your other preferences (i.e., room capacity).

*I am applying for space in Biddle, True, or Pickering. I understand that this living environment will be considered my first choice and that my assignment to this living environment is dependent on available space. **Returning the application does not guarantee an assignment in these residence halls.***
